

TAKE A RECLUSE TOWARDS FREEDOM

LIVING, CRAFTED
IN YOUR
IMAGE

When you go through one day
after another, feeling bound by
constraints of your home that
doesn't feel like one, there are
two questions to ponder over.

“Did you ever live
in true freedom?

Or were you merely
a conduit of
consolations?”

Manifest the destiny you
aspire to have & bring home
the true freedom of living.

THE CANVAS OF LIFE

CLASSICAL

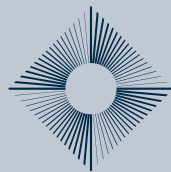

THE ESSENTIAL & THE ECLECTIC

CONTEMPORARY

THE RETRO & THE ZEN

FUTURISTIC

THE SURREAL & THE CYBERSCAPE

STAND OUT YOUR OWN WAY

CLASSICAL

THE ESSENTIAL

The Essential style is inspired by the timeless elegance and sophistication of ancient Greek and Roman aesthetics. With features such as ornate mouldings, intricately designed chandeliers and sconces, neutral colour palettes, and accents of dusted gold and statement furniture pieces, to name a few, the style creates a sense of grandeur and poise.

Our take on The Essential style is a bit of a subtle intervention of minimalism combined with the classical interior design style. Reduced to a few elements of classical design like mouldings, sconces and elegant furniture pieces, the spaces are curated as a gallery of art. The Essential exudes grace and timeless beauty. It is meant for those who like to live in style.

THE ECLECTIC

A bolder take on classical design, The Eclectic is an amalgamation of the past with the present and is best experienced with all your senses. A predominantly visual design style, it offers a wide range of varieties in colours, textures, patterns, fabrics and furnishings. Our notion of the Eclectic style revolves around combining the subtlety of mouldings on walls and ceilings with a pop of retro colours introduced through artworks and fabrics, bringing a literal play of different design styles under one roof.

True to its definition of being quirky, classy, and new, each space is curated to give you a unique experience. So, if you want your house to make a statement, The Eclectic will never fail you.

THE SURREAL

With an avant-garde design style, The Surreal is a distinctive and dreamlike experience. While it transports you to the future with its unconventional shapes and whimsical details, our interpretation of this style simultaneously brings back elements of the past. With a very obvious play of colours and shapes, we imagine your house to be a place of wonder and surprise.

This style challenges traditional notions of reality through the forms that the furniture takes and how it ties together with hypnotising artworks displayed across the space. For those who appreciate quirks and whimsy, The Surreal provides the perfect living space to allow your imagination to create magic.

FUTURISTIC

THE CYBERSCAPE

Set somewhere beyond 2050, The Cyberscape is a new style to explore. A minimal take on futuristic design, this style is inspired by sophistication and modernity, which creates a space of wonder and amazement for its residents. Our interpretation of this style is a subjective depiction of what the future may look and feel like.

With clean but angular lines of focus, we have used the element of 'light' as the main feature. With plain white surfaces, light grey floors, and subtle colour palettes on furniture, the style transports you to the future.

THE RETRO

Blue is the mood for this style we like to call The Retro. A twist on contemporary style, The Retro has elements of past eras, particularly features of the 70s through the early 90s, married to a very modern and contemporary design language. Creating a rather playful ambience, this style is one that will make you nostalgic for sure

A palette of greys, whites, and blues ensures the space has a vibrance to it, one that is further accentuated with details highlighted in black. The furniture and accessories feature clean lines and sleek forms, blending retro-inspired designs with contemporary materials and finishes.

THE ZEN

The Zen is an interpretation of the Japanese interior style moulded together in a contemporary space. Emphasising simplicity, neutrality, tranquilly, and balance, this style is focused on functionality and space optimisation. Overall, with a minimal aesthetic, this style encapsulates elements of nature that can exist in our homes.

Elements such as natural light, large windows, functional furniture pieces, and minimal interventions on elevational surfaces create an openly fluid living environment. This style is the epitome of peace and serenity and makes your experience of being at home almost meditative.
